

PROPERTY ADDRESS ENDORSEMENT FOR 911 OR USPS CHANGE

NOVEMBER 2022

OVERVIEW

Trident will allow a user to change a property address if the reason for the change is a 911 or USPS address change.

To accomplish this goal, Trident will ask the user to select the reason for the change. If the user selects “911/USPS Change” then the property address will be editable. If the user picks any other reason, then the user is prompted to contact underwriting

User Journey:

1. User logs into trident and searches for the policy that they want to endorse
2. User clicks the “endorse” option on the policy details page
3. User navigates to the property address section and clicks “edit property address”
4. The user picks the reason for the change “911/USPS change”, which makes the address, city, and zip code editable.
5. The user makes the changes needed and clicks “review changes”.
6. The user signs and submits the endorsement.
7. The address is updated in Trident, reported to Pivot, and a new declaration is available.

WHAT'S IN AND WHAT'S OUT

What's In	What's Not Included
User can edit property address for reason of "911/USPS Change"	Search results will still display old address
User can edit property address, address type (legal or descriptive), city, and zip code	Endorsement submitted "success" confirmation page will still display the old address
The changes made to the address appear on the "view changes" screen	The latitude and longitude cannot be changed. This is not a system exclusion; FEMA requires that a change to the geo-location use the cancel and rewrite process.
The agent can search for the policy and get a new declaration page right away.	The property state cannot be changed. If the agent wrote the property in the wrong state, other things are affected like community number, geo location, company settlement, reporting, and other significant areas.

1 AND 2: USER SEARCHES FOR THE POLICY TO FIND THE POLICY DETAILS PAGE.

USER CLICKS THE “ENDORSE” OPTION ON THE POLICY DETAILS PAGE

Policy Management Search for quotes, policies, names & addresses + Create Quote Rollover Policy ? 🗨 ⌵
